

PRODUCT TECHNICAL DATA SHEET

ODOUREX - Odour Clear Concentrated Deodorant

DESCRIPTION

ODOUREX is a special concentrated deodorant for use on dustbins, waste heaps, sewage and similar areas where odour is a problem.

Uses a potent blend of essential oils, designed to absorb and cover mal odours from a wide variety of sources.

This product is not a disinfectant and should not be used when sterilisation is required.

DIRECTIONS: For toilets and urinals add a few ccs of ODOUREX to the cistern. For refuse heaps use two parts in one hundred parts of water and spray the source area. For bins, etc., rinse with a 2% solution to keep sweet. For sewage use about 2 parts per million by drip feed. For cleaning 1% may be added to most cleaning solutions to give a powerful extra deodorising affect. Useful for carpet and fabrics or any surface for which extra deodorisation is required. For use on offal dumps spray with neat material.

If spraying, use a course spray and avoid inhaling the droplets directly.

STORAGE: Store in a cool, dry place, protected from frost.
