

PRODUCT TECHNICAL DATA SHEET

RINSEX - Automatic Dishwasher Rinsing Aid

DESCRIPTION

CSL's RINSEX is a blend of surfactants with exceptionally good rinsing properties that facilitate the rinse of water film. The product is non-toxic, non-corrosive at working dilutions. The incredibly high dilution rate is in the region of 10-30 parts per million. The product will dry quickly without streaking.

RINSEX can be used for most processes.

DIRECTIONS: Use as directions by the machine manufacturers. Always wear rubber gloves and suitable eye and skin protection when handling this chemical.

STORAGE: As with all chemical products, store away from naked lights, etc. Store above zero degrees centigrade and below 40 degrees centigrade. Wash away spillages with water.
