

PRODUCT TECHNICAL DATA SHEET

SPEEDEX - General Purpose Cleaner and Degreaser

DESCRIPTION

SPEEDEX fulfils the need for a truly general purpose cleaner and degreaser, safe to use in food preparation areas. SPEEDEX is a truly all purpose cleaner with the added advantage of powerful degreasing properties, all in a single high dilution cost saving concentrate. Hundreds of cleaning functions can be provided by various dilutions of the non-caustic, non-flammable, non-taint, non-toxic and non-volatile food safe product. To add to its outstanding versatility, the product may be used with equal efficiency by hand spray, mop and bucket, or high pressure spray or steam cleaner! So many functions can be utilised by this product, the following will give some indication:

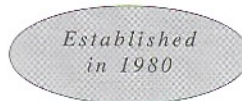

- 3:1 for heavily soiled concrete floors, wax removal, stubborn stains.
- 4:1 for ovens, factory air ducts, factory walls, burned on debris.
- 5:1 for heavy catering grease, cooker hoods etc.
- 10:1 for catering grease, caps, heavily used flooring.
- 40:1 for washing paintwork, greasy kitchen floors.
- 60:1 for upholstery, general floor cleaning, nicotine removal, wall washing, tiles.
- 160:1 for vehicle washing, light floor cleaning, windows, food cabinets, tables, work surfaces, formica units.
- 200:1 for use with a pressure washer

Speedex has been approved by the Royal Institute of Public Health and Hygiene, a copy of the Certificate is available upon request.

If foaming is likely to be a problem use CSL's ANTI-FOAMEX.
For heavy industrial grease use CSL's MOTEX or FAT TRAPPEX.

HEALTH AND SAFETY DATA

SPEEDEX is a slightly alkaline built anionic/nonionic detergent containing some glycol ether solvents. The material is non-flammable. As with all detergent use, hand protection is advised. Following eye contact, flush out with water. If irritation persists, seek medical advice. Hose all spillages with cold water.
